Memo

Re: Washington Academy Safety Review

Having reviewed the concerns provided by Washington Academy, I would offer the following:

1. A school zone can be enacted on the roads surrounding the school (Allen St, 5th Ave, 7th Ave, & W 6th St). Based on IDOT's "Manual on Uniform Traffic Control Devices", this would require posting additional signage per the below:

Qty	Description	Unit Price	Ext Price
12	School Speed Limit 20	\$53.21	\$642.12
12	Fines Higher	\$19.50	\$234.00
7	End School Zone	\$26.11	\$182.77
6	School Advance (Symbol)	\$41.92	\$251.52
6	Diagonal Arrow Down Left	\$16.11	\$96.66
		Total	\$1,407.07

2. After review, we propose the following crosswalks be added: (1) at the 5th Ave and W 5th St intersection, (1) at the 7th Ave and Starr St intersection, and (1) at the 7th Ave and Allen St intersection. Please note, the crosswalk at 7th Ave and Starr St will create additional restricted parking. In addition, the crosswalk at 7th Ave and Allen St will require (2) ADA ramps to be installed. Estimated pricing to add these crosswalks are as below:

Qty	Description	Unit Price	Ext Price
3	Crosswalk Thermoplastic	\$250.00	\$750.00
1	ADA Ramp (8'x4')	\$23.25/SF	\$744.00
1	ADA Ramp (15'x4')	\$23.25/SF	\$1,395.00
		Total	\$2,639.00

3. Per the school's request, intersection reviews were performed at the 5th Ave & W 6th St intersection and the 7th Ave & Allen St intersection. Please see the referenced intersection reviews for additional information.

Re: Request for Letter-of-Credit Reduction – Crosslink Business Park No 2 Subdivision

Wal-Mart Stores East, LP has requested their one-time reduction in the letter-of-credit for Crosslink Business Park No 2 Subdivision. Based on their engineer's latest estimate and a review of the construction completed to date, I would recommend that the original letter-of-credit in the amount of \$1,242,313.00 may be reduced to \$310,578.25. The reduced amount represents 25% of the original amount, which must remain in place until all of the public improvements have been completed and accepted by the City.

Loan Agreement –Standard Conditions Illinois EPA Public Water Supply Loan Program

PROJECT SCHEDULE

For the purposes of this agreement, the start date will be the date the agreement is executed by the loan recipient and the complete date will be the date of final repayment. Any obligation of the State of Illinois and the Agency to make any disbursement of loan funds shall terminate unless this project work is initiated and completed in accordance with the schedule contained in the Loan Agreement.

2. AVAILABILITY OF APPROPRIATIONS; SUFFICIENCY OF FUNDS

This Loan Agreement is contingent upon and subject to the availability of sufficient funds. The Agency may terminate or suspend this Loan Agreement, in whole or in part, without penalty or further disbursements being required, if (i) sufficient State funds have not been appropriated to the Agency or sufficient Federal funds have not been made available to the Agency by the Federal funding source, (ii) the Governor or the Agency reserves appropriated funds, or (iii) the Governor or the Agency determines that appropriated funds or Federal funds may not be available for payment. The Agency shall provide notice, in writing, to the loan recipient of any such funding failure and its election to terminate or suspend this Loan Agreement as soon as practicable. Any suspension or termination pursuant to this Section will be effective upon the loan recipient's receipt of notice. Should the Agency terminate or suspend this Loan Agreement as described above, the loan recipient shall still be required to repay to the Agency in accordance with this Loan Agreement the total amount of loan disbursements made by the Agency.

3. DISBURSEMENTS

Disbursement requests for project work will be processed based on costs incurred, subject to the appropriation of funds by the Illinois General Assembly. Such disbursement requests shall be submitted quarterly and will be monitored for compliance with applicable state and federal laws and regulations, including Section 705/4(b)(2) of the Illinois Grant Funds Recovery Act (30 ILCS 705), and shall constitute quarterly reports as required therein by describing the progress of the project and the expenditure of the loan funds related thereto. Any loan funds remaining unexpended in the project account after all application loan conditions have been satisfied and a final loan amendment has been executed shall be returned to the State within forty-five (45) days of the execution date on the final loan amendment. If the loan recipient reimburses their contractor(s) prior to requesting funds from Illinois EPA, the Loan Recipient shall request as quickly as possible, but in no event later than dictated by Section 5 of the submitted Tax Compliance Certificate and Agreement, reimbursement from the Agency.

- 4. REPAYMENT SCHEDULE Nature of Obligations, Fixed Loan Rate, Interest, Loan Support, Principal Payments and Principal Forgiveness.
- a) In accordance with III. Adm. Code 662.210, the fixed rate is comprised of interest and loan support, both of which are established annually. The term "interest" is used in this Loan Agreement as well as future correspondence, repayment schedules, etc. to reflect both interest and loan support.
- b) This Loan Agreement has been issued and entered into pursuant to an authorizing ordinance of the loan recipient. The recipient recites that it has taken all required actions to enter into the Loan Agreement and has complied with all provisions of law in that regard.
- c) By this Loan Agreement, the loan recipient agrees to repay to the Agency (or, upon notice by the Agency to the loan recipient, the Agency's assignee) the principal amount of the loan with interest on the outstanding and unpaid principal amount of the loan from time to time until repaid in full, all as provided in this Loan Agreement.

- d) For purposes of determining the repayment amount, the principal amount of the loan shall be the total amount of loan disbursements made by the Agency under this Loan Agreement, plus interest treated as principal as provided in paragraph (g) below, less the amount of principal forgiveness as may be defined in the special condition(s) of this loan agreement. The amount financed shall not exceed the amount identified in the approved authorizing ordinance.
- e) The final principal amount will be determined by the Agency after a final disbursement request and project review have been made to ensure all applicable loan conditions have been satisfied.
- f) Simple interest on each loan disbursement will begin on the day after the date of the issuance of a warrant by the Comptroller of the State of Illinois.
- g) Interest and principal on the loan will be due on the dates and in the amounts as set forth in repayment schedules provided for in this paragraph. Upon the initiation of the loan repayment period, the Agency shall establish and notify the loan recipient of an interim repayment schedule in accordance with the terms of this loan. After the Agency conducts the final review of the costs of the project to establish the final principal amount, the Agency shall establish and notify the loan recipient of a final repayment schedule. For purposes of calculating the repayment schedules, the Agency shall consider principal of the loan to consist of all unrepaid disbursements plus all unrepaid interest accrued on these disbursements at the time the schedule period begins. Each of these repayment schedules shall provide for repayment installments consisting of principal plus simple interest on the unpaid principal balance. The installment repayment amount may change when the interim repayment schedule is replaced by the final repayment schedule.
- h) Interest on each loan disbursement shall be calculated on the basis of the total number of days from the date the interest begins to accrue to the beginning of the repayment period and will be calculated on a daily basis using a 365 day year. All interest due on the principal of the loan during the repayment period is calculated on a periodic basis.
- i) The Loan Agreement shall be subject to prepayment at any time in whole or in part, at the option of the loan recipient, by payment of the outstanding principal plus accrued and unrepaid interest on that principal accrued to the date of prepayment.

5. MODIFIED OR SUBSEQUENT ORDINANCES

6. DBE REPORTING REQUIREMENTS

More information and guidance on the DBE requirements is available on the IEPA web site.

- 2. 5-year warranty \$3,429.00
- 3. Equipment & Upfitting \$21,750.00
 - a. Total \$67,830.00

The unfunded amount for a new squad car and related expenses comes to \$44,201.00. I would request to pay the balance using the Police Departments DUI Equipment Fund. These funds come to the City as a direct result of traffic surcharges when traffic violators are convicted of a DUI traffic offense.

Motion:

To authorize the purchase of (1) 2024 Dodge Durango, warranty, and equipment & upfitting at a cost not to exceed \$67,830.00 with payment coming from the following:
