Belvidere Police Department Interdepartmental Memorandum

Date: 12/9/24

To: D.C Bird

From: Sgt. Derry

Ref: Proposal for the Purchase of 9mm pistols with Red Dot Sights

This proposal is to recommend the Belvidere Police Department purchase of 9mm Glock pistols, red dot sights (RDS), and associated equipment for those pistols. I recommend the Belvidere Police Department purchase these pistols, RDS, and associated equipment for those pistols to be issued to the current BPD SWAT team operators for the upcoming budget year. After these eight 9mm Glock pistols, red dot sights (RDS), and associated equipment for those pistols are purchased, the Belvidere Police Department could then budget to switch out the pistols for the rest of the BPD. The benefits of these purchases include improved officer decision making, improved accuracy and hit ratios for officers, as well as department cost savings.

This first part of this proposal is to switch from .45 caliber Glock pistols to 9mm Glock pistols. There are several advantages to making this change. I mention the cost-effectiveness first due to the savings for the department. By my calculations, which are attached to this memo, switching to 9mm would save the department \$3,581.50 in one year for the cost of ammunition. Here are several reasons to consider making the change to 9mm:

- 1. **Higher Magazine Capacity**: 9mm Glock pistols have larger magazine capacities compared to .45 caliber Glock pistols, allowing for more rounds before needing to reload.
- 2. Less Recoil: The 9mm has less recoil than the .45, making it easier to control and shoot accurately, especially for follow-up shots.
- 3. **Improved Accuracy**: Due to lower recoil, many shooters find they can shoot 9mm pistols more accurately, particularly in rapid-fire situations.
- 4. **Effective Stopping Power**: Modern 9mm ammunition, particularly hollow points, has become increasingly effective and can deliver comparable stopping power to .45 in many scenarios.

- 5. **Training and Practice**: With lower ammunition costs and less recoil, shooters may be more inclined to train regularly, enhancing their proficiency.
- 6. **Availability of Ammunition**: 9mm ammunition is widely available, making it easier to find and purchase, especially during shortages.

In my opinion, the Glock 45 (GLOCK 45) is the better option for the Belvidere Police Department over the (other 9mm options) Glock 47 (G47), Glock 17 (G17), and Glock 19 (G19) for several reasons:

- 1. **Compact Size**: The Glock 45 has a compact design that combines a full-size frame with a compact slide, making it easier to handle for our officers compared to the G17, while still offering a full grip.
- 2. **Shorter Slide**: The compact size allows for quicker clearance from the holster, as the shooter doesn't have to contend with as much length when pulling the pistol, and it is easier to maintain control during the draw, leading to a more efficient and precise shooting process.
- 3. **Increased Magazine Capacity**: The Glock 45 typically has a higher magazine capacity than the G19, utilizing G17 magazines (17 rounds).
- 4. **Gen 5 Features**: The Glock 45 is part of the Gen 5 lineup, meaning it incorporates modern advancements such as improved barrel design, ambidextrous slide stop levers, and a flared magwell for quicker reloads.
- 5. **Better Grip Texture**: The GLOCK 45 has an enhanced grip texture that provides better traction, improving control, especially in adverse conditions.
- 6. **Compatibility with Accessories**: The Glock 45 features a front rail for the attachment of accessories like lights and lasers, making it versatile for tactical applications.
- 7. **Balanced Performance**: Many officers find that the balance of size and weight in the Glock 45 makes it easier to shoot accurately compared to the larger G17 or smaller G19, which can enhance overall handling.
- 8. **Handling Recoil**: The full-size grip and the compact slide design of the Glock 45 can help reduce perceived recoil, potentially improving follow-up shot accuracy.
- 9. The Boone County Sheriff's Department has decided to make the change to the Glock 45 from the Glock 21. They will be replacing their entire department's pistols with Glock 45s in March of 2025. Given the fact that half of our Belvidere Police Department SWAT team is made up of Boone County Sheriff's Department deputies, it would be beneficial to have everyone using the same pistol. They are also purchasing the TLR-7 pistol lights for their all of their deputies as well. They have been using these lights for over a year (for investigations, admin, etc.) and have had no issues and have received positive feedback from the deputies that have been using them. Uniformity in this equipment simplifies training and ensures that all SWAT team members are familiar with the same operating procedures, handling, and maintenance. With everyone using the same pistol and light, training can be tailored to that specific equipment's strengths and weaknesses, improving overall team proficiency.

The second part of this proposal is to recommend the purchase red dot sights (RDS) for the Glock 45 pistols. Just as we changed from iron sights to red dots on BPD SWAT rifles many years ago, the transition to RDS on pistols has been done for years in law enforcement departments across the country. Several major agencies approve RDS on pistols including the US Marshals service, FBI, and Las Vegas Metro PD. Local agencies permitting RDS are Bloomington PD, ISP SWAT, Naperville PD, Janesville PD, Downers Grove PD, Winnebago County SD, and many others. Rockford PD and Cherry Valley PD are currently in the testing and evaluation process for them. The national trend seems to show that they could be standard issue in the next few years.

Making this change helps in several areas. The biggest benefit to RDS on pistols is the ability for the officer to stay threat focused. Traditional iron sights force the shooter to concentrate between three focal planes: the target, the front sight, and the rear sight. With an RDS, the shooter only has one focal plane, the target. Staying threat focused allows the officer to process more information as the scene unfolds, which can lead to better decision making. Being threat focused is also a natural process to the body. RDS also tend to help shooters whose vision is less sharp or deteriorating due to age. "For the law enforcement officer, the use of an MRDS on their duty handgun would allow them to maintain a constant focal history on the threat for the entire period of an engagement. Not only does this allow an officer to remove the need to refocus for sight alignment or sight picture, it allows the officer to have a clear picture of the threat up to and including the moment where force is used." – Sage Dynamics study

A recent study by Norwich University has found that untrained shooters had more accurate hits with RDS pistols vs. traditional iron sights. Aaron Cowan (Sage Dynamics) published his white paper findings after studying RDS use on pistols over a span of several years. His paper also found more accurate and better shot placement between RDS and iron sights. This study is attached to this proposal.

The Holosun 509T RDS stands out among red dot sights for several reasons, especially if you're comparing it to other optics in its class. Here are some key advantages:

- 1. **Multi-Reticle System (MRS):** The 509T lets users switch between a 2 MOA dot, a 32 MOA circle, or a combination of both. This flexibility is rare in red dot optics and suits different shooting preferences and scenarios. This will allow our officers to choose what works best for them.
- 2. Advanced Brightness Settings: The sight offers 12 brightness settings (10 daylight and two-night vision-compatible), allowing adaptability to any lighting condition. This will allow our officers to choose what works best for them.
- 3. **Durable Enclosed Design:** The 509T has an enclosed emitter, unlike open-emitter sights. This protects the emitter from dirt, water, and debris, ensuring reliability in all environments.
- 4. **Titanium Housing:** Made from titanium, the 509T is significantly tougher and lighter than aluminum-bodied red dots, offering superior durability while maintaining portability.

- 5. Solar Power and Battery Life: With Holosun's Solar Failsafe technology, the sight can run on solar energy when the battery is low. Coupled with the Shake Awake feature, the battery life is extended up to 50,000 hours on a single CR1632 battery.
- 6. Parallax-Free and Crisp Reticle: It provides a crisp, clear reticle with minimal parallax. This ensures accurate shots and easy target acquisition, even for users with astigmatism.
- 7. **Waterproof and Fog proof:** With an IP67 rating, the 509T is resistant to water immersion and dust, making it reliable in extreme conditions.
- 8. Value for Price: While not the cheapest optic, the 509T provides premium features typically found in higher-end optics, delivering excellent value for its price.
- 9. **Holosun's Reputation:** Holosun has established itself as a leader in innovative and robust optics, often providing features that surpass more expensive competitors like Trijicon and Aimpoint.

Conclusion: All of these proposed changes keep the Belvidere Police Department in line with progressive departments across the country. Having a pistol that the officer feels more confident with and shoots better is obviously a win for the department and the officer. Providing RDS helps our officers make better decisions and take in more information during a high stress situation, which could help limit department liability.

My recommendation is that the Belvidere Police Department budget for the purchase of eight Glock 45 pistols with Holosun 509T RDS, eight Streamlight TLR-7 Compact Tactical Weapon Lights, and eight Safariland level III retention holsters with quick locking system kits. These items would be issued to Belvidere Police Department SWAT team members: Derry, King, Lane, Zapf, Worley, Garcia, Gibson, and the remaining open spot that has yet to be filled on the BPD SWAT team.

I have spoken with our Kiesler Police Supply representative, Kevin Burke who informed me that they would give us a trade-in value of \$270.00 on our old Glock 21 .45 caliber pistols, \$25.00 on our TLR-1 flashlights, and \$5.00 per Safariland holster. With each Belvidere Police Department SWAT operator turning in their tactical holster and duty holster along with their pistol, and TLR-1 flashlight, that would give each operator a credit of \$305.00 towards the purchase of the new equipment. The department would then need to purchase a holster for each operator and a quick locking system kit that would allow them to transfer the holster from their duty equipment to their tactical SWAT equipment. This holster system would cost the department \$163.22 per operator.

Kevin Burke also informed me that the price of a Glock 45 with Tritium sights and a mounted Holosun 509T RDS would cost department \$836.08 per operator. This would make the total cost for the pistol and holster system \$1,124.30 per operator. Subtracting the trade-in value for old pistols and holsters per operator \$305.00 would give us a total cost of \$819.30 per operator. With the total cost of new equipment for eight Belvidere Police Department SWAT operators being \$6,554.40.

As mentioned earlier in this proposal, if approved, switching to 9mm would save the department \$3,581.50 in one year for the cost of ammunition. This savings would

cover the cost of just over five operator equipment upgrades in just one year. To put that into perspective, the change to 9mm ammunition alone, will pay for all of this requested equipment in about 8 ½ years.

This proposal is intended to budget for these purchases within the next year. If approved, the department still has the time and availability for testing and evaluation of multiple 9mm Glock pistols and RDS. I respectfully request that these items be budgeted for the next fiscal year and approval for testing and evaluation by the Belvidere Police Department administration prior to making the purchases.

I have attached information sheets and price quotes regarding this department purchase. Your time and consideration in this matter is greatly appreciated.

Respectfully,

Sgt. Paul Derry
